## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 2 and 20-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims are indefinite because claims 2 and 29 contain two sentences, although it is required that a claim be of a single sentence. Furthermore, there is no linkage between sentence 1 and sentence 2, based on the values in 1 and 2.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --  
(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 and 28-30 are rejected under 35 U.S.C. 102(b) as being anticipated by DD 120646 and DD 200083.

Both the patents teach a urea/aldehyde condensation product with phosphate salts that are known to be sparingly soluble. Note that claim 28 is written in a product-by

process format and as such, it is the novelty of the instantly claimed product that need be established and not that of the recited process steps. In re Brown, 173 USPQ 685 (CCPA 1972); In re Wertheim, 191 USPQ (CCPA 1976).

Claims 29 and 30 are met by the reference showing that the abstracts are drawn to fertilizers.
